POWERFUL, REALISTIC WINCH CAPABILITY

The new Pro Scale Winch puts the TRX-4 and TRX-6 even further over the top as the most full-featured and authentic trucks on the trail. The new winch performs as realistically as it looks, and is a truly functional tool for off-road exploration and adventure. The included fob-style remote allows you to extend and retract the high-strength winch line with the touch of a button. The rugged, heavy-duty hook is made of metal for reliable performance and lasting durability, and the high-torque motor gives the winch a 10-pound maximum capacity.

PRO SCALE WINCH (8855) INCLUDES:

- Remote-operated winch with built-in electronics
- High strength reinforced winch line
- Fob-style 2-channel remote
- Heavy-duty steel hook
- Free spool feature for quick operation
- Realistic fabric winch tag
- Line retainer, hardware, and instructions

NEW WINCH COMPATIBLE BUMPERS

Installation is simple. Winch-compatible bumpers are available for all TRX-4 and TRX-6 models. Simply install the winch on the bumper and install the assembly in place of your model's stock bumper. Add the #8088 accessory LED light bar to the new winch-compatible bumpers (8865, 8866, 8867 and 8869) for even more scale realism.

The following vehicle-specific bumper parts packages are required for proper installation of the winch (each sold separately):

Part No.	Bumper Style	Applicable Models
8866 Width: 191mm		82010-4 TRX-4® Sport Unassembled Kit 82024-4 TRX-4® Sport 82034-4 TRX-4® with All-Terrain Traxx™
8865 Width: 200mm		82016-4 Unassembled Kit 82056-4 Land Rover® Defender® 82066-4 Tactical Unit
8867 Width: 217mm		82046-4 Ford® Bronco® 82076-4 1979 Chevrolet® Blazer®
8869 Width: 227mm		9111X 1969 Chevrolet® Blazer® 9112X 1972 Chevrolet® Blazer®
8868		82096-4 Mercedes® G 500® 88096-4 Mercedes® G 63® <i>Note: Refer to the special instructions that are included in the bumper package for installing this bumper set.</i>

Accessory bumper not required for 2021 Ford Bronco

(model #92076-4)
